Dear Parents,

Hope this letter finds you in good health and spirit!

The humanity is facing an unprecedented challenge – probably never experienced since its existence! Virtually the whole world is under lockdown when almost all the countries around the globe are affected by the COVID-19 pandemic – a black swan event in the history of mankind.

Social distancing has been advised as the best practice at this critical hour; and it is our duty to follow the Government directives and stay at home until further notification. We need to fight together to win this Battle against this invisible virus and for that we need to restrict ourselves indoors.

I am confident that with our resilience we will overcome these difficult times. However in order to ensure that our students don't miss out on their precious academic times we have decided to begin the new academic session through online teaching-learning platform. As a family, you will be at home 24x7 and it would be wise to avail this opportunity for utilizing this time for various enriching activities – spending quality time together, playing some indoor games, doing yoga/meditation/exercises together, learning new hobbies, making children equipped with life skills through every day work at home, and so on.

As a part of the Ahlcon Public School's initiative, we shall also supplement by stirring your child's academic progress through online learning. Following this communique, we shall forward you these documents in batches to educate your child and you about our endeavour:

- (1) Access to Class-specific NCERT/CBSE e-Text-Books, so that students can read the same, due to the absence of hard copy text books with them.
- (2) Access to NCERT/CBSE curricular content, so that children can go through the explanations, examples and related questions for any chapter.
- (3) Access to other supportive online learning modules.
- (4) Our syllabus break-up, showing the topics to be covered during the next six weeks through online learning.
- (5) Some tutorial presentations from their subject teachers to guide them further on those topics.
- (6) A timetable showing the subject distribution – we shall cover a few subjects per day.
- (7) Teachers' interaction with students over live classes to clarify any doubt.
- (8) Online Assignments to be completed by students.

Though online can never replace the face to face humane interaction with teachers, hopefully these initiatives will be engaging for your children and the learning will continue even in the distance mode. We shall forward all communication through the school website link or via WhatsApp Broadcast groups having your registered mobile number and kindly check website updates and messages regularly.

This is a difficult time and it's important to stay safe and in good health. I urge you for following the best practices at home – do stay well, healthy and take care of yourselves and your loved ones. We pray for your well-being!

With best regards,

Dr. Deepak Raj Singh Bisht
Principal
